

RE-STRATEGISING RESILIENCE

6 REASONS TO CHOOSE DISASTER RECOVERY-AS-A-SERVICE

A robust disaster recovery (DR) strategy is the only way to ensure swift recovery and minimise downtime, disruption and data loss. But implementing and maintaining an effective and scalable DR strategy is easier said than done.

71%

construction firms describe their disaster recovery strategy as weak¹

1 in 3

firms lack confidence in their ability to recover²

1 in 5

companies never test their DR plan²

Rising cybercrime, increasing virtualisation and growing infrastructure complexity make it ever more challenging to ensure business resilience.

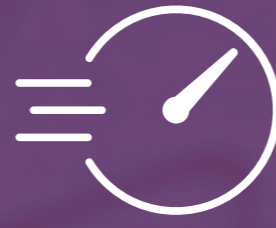

THESE PROBLEMS DISAPPEAR WITH CREATIVE'S FULLY MANAGED DISASTER RECOVERY-AS-A-SERVICE.

BENEFIT FROM:

MINIMAL DOWNTIME

We guarantee to get users back online fast – with an RTO <1 hour or tailored to your business needs.

NEAR REAL-TIME REPLICATION

Experience just seconds of data loss with an industry-leading Recovery Point Objective (RPO).

LESS BUSINESS DISRUPTION

We'll perform regular tests with no impact on business operations nor break in replication.

ALWAYS-ON ACCESS

Users will always be able to access data and apps, supported by our 24/7 UK-based team.

LOWER TCO

No need to manage your own DR platform and employ round the clock staff cover.

PEACE OF MIND

Have confidence you'll always be able to fully recover, as quickly as possible.
